

OVEN FIRE in the galley

Simulated circumstances

This scenario simulates a fire in the oven caused by flammable oil, fats or combustibles, like clothing, etc.

Objective

The objective is to adequately assess the situation and neutralize the fire in a team approach with an Attacker (A), Buddy (B) and Communicator (C).

Fire trainer settings

Configure the fire trainer as follows and select OVEN

Parameter	Value	Parameter	Value
Fire trainer mode	Automatic	Smoke	25%
Difficulty level	1	Relight timer	n.a.
Training time	2,5 min	Cabin sound	OFF
Lighting	100%	Burning smell	OFF

Preparation

Required for this training exercise are:

- 2 filled fire extinguishers
- 2 PBE's (Protective Breathing Equipment)
- 2 pair of gloves

Special attention points

- Check if Master Galley Switch or Oven Switch is switched OFF by the trainee
- Check if the Attacker stays behind the oven door to protect him/herself
- Check if the oven door is only opened slightly, just enough to insert the nozzle of the fire extinguisher.
